NO. 51

MARSH CREEK AT WATER PLANT--See Page 2.

THE UNEXPECTED ACCIDENT

CHARLES SPEESE AND WM. HANER SERIOUSLY HURT.

Breast Chain Broke, Wagon Ran Down Short Hill and Men Were Thrown Off.

When man's talents due it is often attended by very unusual circumstances. No one would have dreamed of an accident in the way one occurred on last Friday afternoon in which Charles Speese and Wm. Haner were seriously hurt.

Mr. Speese was hauling tile from a plant on the York pike below the bridge to town to load on car. Mr. Haner was helping and they had in use team of Robert Shriver of this place. The horses were quiet ones.

They were crossing the York pike bridge when the breast chain on one horse broke. This threw the weight on the other horse, and when he planted himself to hold back wagon his breast chain broke and the wagon descended of its own weight. The rubbers were forgotten for the moment.

The wagon had such a momentum that when it struck a stone at the foot of the small hill it was carried over a wing wall of the bridge at a point about four feet high, pushing the horses ahead of it.

At the moment of going over the wall the two men were preparing to jump and can't remember whether they jumped or were thrown, it all happened so quickly.

As Mr. Speese struck the ground the wheel of the wagon passed over his leg. He immediately sat up and began to ascertain whether leg was broken to find that though it was crushed and bruised no bones were broken but was surprised to discover that his left arm had in some way been broken at the wrist. Strange that hand did not seem bruised while other hand was badly torn and bruised, as also his left hip.

Mr. Haner, who had gone off on the other side of the wagon, was caught on the heel by wheel of wagon and the shoe was literally torn off his foot. That foot was lacerated and bruised.

People living in that part of the town hastened to the help of the two men and they were taken to their homes and physicians summoned.

One of the horses had fallen on its haunches and wagon ran into it and while bruising did not seriously injure animal.

To add to the marvels only nine pieces of the tile on wagon were found broken and it was marvelous in short turn in going over embankment the wagon did not upset.

Though it was fortunate that the men escaped with their lives, yet it happened at a very inopportune time for Mr. Speese. He has been very busy at his tile works, in the height of the busiest season. The accident adds to those in the Speese-Hollebaugh home needing medical attention. Russell Hollebaugh though much improved is not yet a well man and Barney Hollebaugh has been seriously ill with a ear-ache on his neck.

FIRE PLUGS IN EQUITY.

McSherrystown and Water Co. Fight Over Rates.

McSherrystown borough and the common Hanover and McSherrystown Water Company are at logger heads on the question of fire hydrants or plugs and the price to be paid for same.

McSherrystown is the second town in county with population of about 1500 inhabitants has enjoyed protection from fire since the building of the plant of the McSherrystown Water Company. Twenty-six fire plugs had been connected with the mains for which a yearly rental of \$150.00 a plug.

After the two companies had been brought up and combined the question of the rental for the fire plugs came up and was discussed between the borough authorities and officials of Water Company. The latter insisted that the town should pay \$10 per year for each plug. The council felt the need of 10 additional plugs or a total of 36 and that would bring the yearly rental to \$360 and were in a dilemma to pay

any such sum, offering instead \$12.50 per plug a total of \$450 a year.

Neither party could yield and the Water Company, out of the matter to a close by threatening that unless the demand of \$10 per annum for each plug was paid the fire plugs would be sealed and rendered useless.

This created a great deal of alarm for if the fire plugs were out of the town would be without any protection in case of fire. Last week the borough presented to Judge Scope a bill in equity, asking for an injunction to restrain the Hanover and McSherrystown Water Company from sealing and interfering with use by borough of the fire plugs and that the court shall determine as to the charges to be made by the Water company for the service of fire plugs.

As a matter of comparison there are about 40 plugs in Gettysburg for which the Gettysburg Water Company receives the annual rental of \$400 or \$10 a plug.

Sewer Bonds.

The Finance Committee of borough of Gettysburg offered the sewer bonds at public sale on last Wednesday afternoon in front of the Court House. James M. Caldwell auctioneer. This course was adopted as it is said by intimations from town people to be given a chance to secure the bonds, bearing interest at 4 per cent and not subject to taxation. With a million and a half dollars lying in our banking institutions in special deposits bearing three per cent it seemed reasonable to suppose that \$500,000 would be raised here, specially when four per cent was paid and all the holder had to do would be to clip the coupons semi-annually and that a premium would be paid to obtain such an investment. City brokers pay premiums for such investments and then unload them on customers who pay an additional commission. The longer a bond runs the larger the premium paid.

Four citizens were willing to pay a slight premium. Prof. Hines 2 at \$501. Mervin Bender 1 at \$501. Capt. Calvin Gilbert 1 at \$501. J. Harry Rhine 3 at \$501. A number of citizens were willing to have the bonds at par. P. M. Bickle, 2; Dr. J. W. C. O'Neal, 2; Mervin Bender, 1; Prof. J. A. Hines, 5; Alex. Spangler, 8; James M. Caldwell, 2; Max Davis, 1; J. A. Hankey, 1; Westley Over, 1 and Calvin Hamilton, 1.

The committee had offered the bonds with right to reject any and all bids. Finding that there were no more bidders after taking above bids for \$15,000 of the bonds the whole issue was withdrawn and will be offered to brokers and it is believed that the town will realize a nice premium from same.

The thirty \$100 bonds at 3.90 per cent interest to pay off the old issue was sold to the Finance Committee at par. They will use the Harry Stahl Charity fund in purchase of the same. This fund is lying in bank drawing 3 per cent interest and it was believed to be a wise movement to invest it in borough bonds and increase the income for charitable purposes.

Methodist Picnic.

The Methodist congregation held a delightful picnic at Black Hole on last Thursday. Five large vehicles and a number of private conveyances were used to take the party to and from the picnic grounds. A feature of the day was a pleasant surprise given Superintendent of Sunday School, S. A. Hammond. It was his birthday anniversary and date had been selected for that reason. Rev. W. W. Hartman on behalf of the Sunday School presented Mr. Hammond with two books in a neat package which proved a great surprise to the Superintendent.

CHIPPENDALE CHAIRS

A YORK DEALER SECURES SET IN COUNTY FOR ABOUT \$350

\$2,000 is Now Asked For Set and an Early Sale Will Likely be Made

A recent sale of a valuable set of Chippendale chairs in this county recalls an interesting historical episode of Revolutionary times and it is to be regretted that these chairs were not secured by some citizen of the county who would have preserved them not only for their worth, but also for their historical association.

A tract of land in Huntingdon township, of 10 acres has been known for nearly a hundred and fifty years as "The Glebe." The tract was set apart for the support of public worship by William Penn or his heirs. On the Glebe farm there was a pastor's house and Christ's Episcopal church and the latter became known as the Old White church. In 1836 the Episcopal church or chapel in York Springs, was built, as the old church was in a dilapidated condition. About 1835 the Glebe farm was sold and the only remainder to-day of church is the graveyard.

The pastors were missionaries sent from England whose sympathies were with the mother country as against the colonists. The third pastor was Rev. Daniel Batwell, who remained until after the breaking out of the Revolutionary war. He lived in the house upon the Glebe. He officiated at Christ's church and in York. As an historian of York county has said: "Though his political views did not coincide with those of Americans, yet it is due to his worth to say that he was an accomplished scholar and a good man."

His political opinions got him into trouble. When he preached on a certain Sabbath in York the following day he was seized by some rude and boisterous friends of Liberty, by whom he was at three several times ducked in the Codorus Creek.

Being freed he set out on his return to his home on the Glebe, but he had hardly arrived there when a company of armed men from York roughly seized him and returning confined him in the public prison.

A memorial from Mr. Batwell from his prison was read in the Continental Congress in October 1777 and it appeared that he was so much ennobled by a complication of diseases that his life would be endangered unless he was removed from jail. He received afterwards every indulgence and was soon released.

After his liberation he returned to England where he ended his days. It is not known that he was ever molested by the people of Huntingdon township.

As the story goes, soon after his arrival at the Glebe, a lot of furniture was sent to him from the Deaunery of Canterbury. Among this furniture were six straight back Chippendale chairs, two armed chairs and a corner chair of the same make. It is the opinion of all familiar with old furniture that these chairs were genuine Chippendale. It is true that many workmen who helped to make these chairs in the English establishment came to this country and made many chairs of the same pattern, which can not be distinguished from those made in the original establishment. However as the chairs sent Mr. Betwell came from the Deaunery of Canterbury it is concluded that they were of the genuine Chippendale make.

The chairs are beautiful, being of mahogany and with oval center piece in back and are handcarved in fine pattern. Before going to England Mr. Batwell placed some of his furniture in the care of Mr. John Collins, one of his parishioners and among them were these chairs and they remained in the Collins family until about 1850.

At length at a sale by one of the Collins family these chairs were sold and Dr. David McConaughy White, of Hanington, secured one of the armed chairs and five of the other kind and two went to people in neighborhood. It is the best recollection to be had now that at this sale these chairs did not bring over \$2 a piece. The corner chair is supposed to have been given the Rt. Rev. M. A. DeWolf Howe, bishop of the diocese of Central Pennsylvania for many years.

Upon the death of Dr. D. M. White in May at his Hanington home, in his 86th year, the chance was opened to secure his portion of the valuable set of Chippendale chairs. The first party to become acquainted with this chance was Samuel Trimmer of York, a dealer in antique furniture.

He clinched the sale as speedily as possible, paying about \$225 for the six chairs. Mr. Trimmer then secured the other two chairs, one from Isaac Worley, living near York Spring. It is said that he paid \$100 for one of the chairs.

It is now reported that Mr. Trimmer has been offered by several wealthy citizens of York, \$1,000 for the set of six chairs, and two armed chairs, but that he asks \$2,000 for same. The chairs are in good state of preservation.

tion. Those contained from Dr. White's estate had been re-upholstered but the one secured from Isaac Worley is said to have retained the original hen cloth covering, fastened to chair with brass tacks.

When it is recalled that a set of nine chairs of the Chippendale make recently sold in Baltimore for \$3,000, it is believed that Mr. Trimmer will get his price. At any rate Adams county has lost the chairs which have been in her confines since the foundation of county.

In a Den of Snakes.

E. N. Hoffmann, Emory Tuckey and Miss Alice Deamer, on Sunday of last week, went up to the Mountain in Menallen township to pick huckleberries and ran into a den of snakes. They counted four rattlesnakes and ten copperheads. Some were coiled on a rock others near base of rock. As soon as the men made their appearance and started to fight the snakes, the latter hurried under the rock. All of them did not however escape, as the men killed one rattlesnake and five copperheads. The former was quite a large one with 12 rattles and the three that escaped were thought to be of same size. The five copperheads were coiled together.

Well Known Mill Burns.

On Friday night about midnight the well known flour mill, the John Mill, located on the Little Codorus Creek, about two miles from New Oxford, burned to the ground. The mill was a new one and improved with the best of milling machinery. The mill on same site was burned seven years before. The last time was about twelve years ago and had been built up by S. L. Johns, the present owner of mill, who recently purchased the same from Messrs Gitt and Delone. The mill was operated by J. H. Eisenhart & Bros. The origin of fire is unknown. A smoldering spark from engine has been suggested as a possible cause. The loss is estimated at \$7,000 and is partly insured, the owner having \$2,000 and the tenant \$2,000 about covering his loss. An apprentice slept in mill and was rescued with difficulty, escaping by a ladder brought by neighbor.

Prisoner Rides in Auto.

George Johnson, colored, after boarding with Sheriff Basehor for about ten days was called for on last Thursday by the Sheriff of Frederick Co., Md. George was wanted for larceny. Sheriff Charles T. R. Young, of Frederick, came with the requisition papers in an automobile and when starting on journey placed the prisoner on rear seat hand-cuffed between himself and a deputy. George did not seem to appreciate the luxury of riding back to jail in an auto and complained of being cramped. The prisoner was said to have been recently discharged from Maryland Penitentiary.

Successful Porch Party.

The Presbyterian congregation gave a porch party at the home of A. Daner Buehler on Tuesday evening of last week and besides being a delightful affair proved to be successful as \$40 was realized from same.

Western Maryland R. R. Souvenir Day at Pen-Mar Thursday August 24th.

The Western Maryland R. R. Co. announces that Thursday August 24th will be Souvenir Day at Pen-Mar and every lady and girl passenger on the Pen-Mar train on the above date holding Pen-Mar excursion tickets will be presented with a handsome Sterling Silver Hat Pin in a neat Souvenir case. There will be no advance in prices and this is entirely complimentary on the part of the Western Maryland R. R. and in acknowledgement of the support and patronage given Pen-Mar by people living in this vicinity.

Price of a Piano.

You will not be as unfortunate, if you pay a little too much for a good piano, as if you buy an instrument, that will disappoint you in quality, at a lower price. The best piano you can afford is the one for you to buy, and if you buy a Weaver piano at from \$400 to \$550, according to the style, you will not be paying too much for the instrument and you will get better value for the amount invested than if you decide on a cheap piano. Send for catalogue.

WEAVER ORGAN & PIANO CO. Manufacturers, York, Pa.

Congressman Lafean Hurt.

Congressman Lafean with party of friends returned from Atlantic City to York last week in an automobile. Stuart Lafean, son of Hon. D. F. Lafean, had charge of the auto and not far from York speeded the machine and a little later there was a sudden stop. This threw the Congressman forward, his head coming in contact with the head of a bolt. The concussion was so severe that Mr. Lafean was unconscious for some time. He also sustained a severe cut on top of the head. The party reached York without further mishap, where Mr. Lafean received medical attention.

PUBLIC SCHOOL BUILDINGS

THOROUGHLY CLEANED FOR OPENING OF SCHOOL.

The Buildings Are Almost Taxed to Limit to Accommodate the School Children.

The public school buildings in this place are being put in first-class shape for opening of schools on Monday September 4th and a visit to these buildings will well repay parents, citizens and tax payers.

The steady growth in this town is demonstrated clearly in the large attendance at the schools. Only a few years ago the Public School building on High street furnished every school facility in the town. Now that building and the Meade High School are about taxed to the limit to supply room enough for the school children and many of the schools are crowded with sixty scholars to the room.

Junior Craig B. Shields has the High street building ready for opening of school. The two northern rooms on first floor have been thrown into one room, over water, Miss Elmina Platt presides. Last year her school of 70 scholars was crowded into a small room. The one large room will be arranged by carpenters last week comfortable accommodate 60 scholars.

The many changes in this building from years ago are a surprise. Each room with hydrant water and with receptacles for umbrellas and well heated. Furniture and windows have been cleaned and floors oiled and it is a pleasure to see how the children have been provided for.

Janitor Charles Little has Meade High School in excellent condition, the building having been well cleaned and put in order. An attractive feature of this building is the cellar with cement floor and every part of it as clean as school rooms above. Mr. Little has patiently worked to make a lawn around building and each year it has become finer and now makes a most attractive surrounding. Janitor Little deserves great praise for this civic improvement.

The one question which may occupy the School Directors at an early date is whether the school buildings will be connected with the new town sewer and improvements made which sewerage affords. Sewer contractors will build that portion of sewer which crosses Chambersburg pike, Meade High School grounds and Springs avenue at an early date in order to finish and close same before school opens. The line runs through school grounds along brick walk entrance way to building. It would certainly be a move in the right direction for the School Board to give both buildings the advantages of connection with the new sewer. It will be done some day, if not now, and there could be no better time than now when the work can be done with the least inconvenience.

Clean and Beautify Town.

The Civic Club wishes to extend thanks to Dr. and Mrs. Harry Huber for making an unsightly lot beautiful. This is truly Civic work.

The lot planted with nasturtiums gives great pleasure to many who pass it walking to the hill.

Mr. Mertz deserves our thanks for the beautifully kept grass plot beyond his house.

There are many parts of the town where weeds are growing rank in gutters and on roadside, will not those responsible clear them away? Walking down East Middle St. last week from Stratton to the Avenue we were much pleased with the well swept pavements and curbs beyond and some one mentioned the square on Chambersburg street below Washington.

Carlisle street is looking up and Baltimore street is a joy in some parts of it, so well swept and clean. We wish to correct statement in last week's issue. It is not from Baltimore to Carlisle St. that \$7 cents is given but there is one quarter of the square which only pays that amount. Publicity Committee, Civic Club.

ALL ON ACCOUNT OF DOGS.

The Borough of New Oxford Legislates Against the Animals.

The borough of New Oxford is somewhat agitated on the dog subject. The Town Council have taken a hand in the matter and are divided into two hostile camps over it.

There are over fifty dogs assessed in borough for taxation purposes, besides a number of dogs whose owners could not be ascertained. It is believed in a town of 700 inhabitants there are at least 50 dogs, or coming 5 members to each family there would be one dog in every other house.

Certain dogs have been making much trouble by attacking people. The dog of Miss Lizzie Keller attacked Mrs. Weaver, an aged lady several weeks ago. One town had no policeman who might take action, so M. H. Colebrook, a member of the Town Council, said Miss Keller for maintaining a public nuisance by keeping

a dog that attacked and had bitten several persons and keeping her chickens on street so as to make walking very unpleasant. It cost Miss Keller \$20 to settle this case and damages to Mrs. Weaver, the larger amount going to the lady. She also promised to keep dog and chickens in yard, which has been done.

The Town Council at their last meeting this month took a hand by passing an ordinance providing a fine of 25 and 50 cents on male and female dogs respectively and prohibiting them from streets unless muzzled and directing the catching and killing of dogs found on street if not reclaimed from the dog pound by paying the expenses. The cellar under lock-up may be turned into a dog pound. The ordinance after a debate carried by a vote of 5 to 2.

It is not known what Burgess John N. Hersh will do with the dog ordinance. He has it under advisement, but the vote in Council would indicate that the ordinance will likely become a law.

At the same meeting of Council Joseph E. Null was employed as policeman at salary of \$700.00, March 1, 1905. It seems the borough has been at a loss to carry out police regulations. Burgess, Town Councilmen, Borough Committee, Justices of the Peace and Constables have all taken a hand but in the future the policeman will probably be supreme in town affairs, especially on the dog subject.

Cow Swallows Piece of Wire.

Dr. Wm. M. Biggs was called Aug. 2, to attend a cow belonging to John C. Walters near Biglerville. He found the cow to be suffering with a lesion of the heart and lungs. He attended the cow until Aug. 11th when it died. It delivered a calf at three o'clock and died at half past seven. When opened it was found to have swallowed a piece of fencing wire between five and six inches in length which passed through the stomach, diaphragm and pericardium penetrating the heart. The wire was swallowed about a month previous as near as owner could tell.

Dislocated Shoulder.

W. H. Izer of Littlestown on a pleasure trip to Gettysburg last week with some friends stopped at Spangler's Spring. Getting out of the conveyance he ran around a wagon and slipping on a stone fell to the ground dislocating his shoulder. Dr. Walter H. O'Neal gave necessary medical attention and Mr. Izer was taken to his home.

Marriages.

Aug. 5th, 1905, at Mt. Holly Springs by Rev. N. M. Walker, John A. Keller and Elizabeth Murtford, both of Bendersville.

Will Contest Begun.

Proceedings were instituted last week to contest the will of Dr. David McConaughy White of Hampton. Deceased left a will giving his entire estate to his second wife, Mrs. Mary White, with whom he lived 26 years until time of his death. Last Friday an appeal from probate of will was filed by Wirt White, a son living in Hampton. On Monday a petition was presented to Court setting out grounds upon which the contest will be made to set aside will, it being alleged that Dr. White was not only incompetent to make will at time the probated will was executed but also that will was executed by reason of undue influence on part of the wife.

Devil Catcher.

The big sewer digger has been nicknamed "Devil Catcher" and there seems to be something appropriate about it for the title. To see it cut a ditch through the streets gives the impression that if necessary it might rip open the bottomless pit and its occupants.

Everybody in town and county should see this devil catcher sewer digger before it leaves town. It compels one to marvel at the ingenuity of man. The digging runs on a big chain and goes down on one side, are driven into the ground and come up on the other side with the ground which is dumped at highest point on a broad belt which runs to either side as arranged, carrying and throwing the dirt in the gutter out of the way of the digger.

Water Street is now opened to its full length, almost a square of Stevens street, Stratton street from Stevens street almost to railroad. Poles are arriving. The contractors have sent horses and wagons from Reading for hauling purposes. Arrangements are being completed to begin the laying of the pipe.

A Good Sized Tramp.

John Bailey and Stanley Gilbert, formerly of this place but now working in printing establishments in Chambersburg took their vacation by starting on an extended walk. They went first to Carlisle, then to Harrisburg, Highspire and Steelton and arrived in Gettysburg last week, where they will rest up before the return trip.

MRS. EVE HALLACHER DEAD

East Berlin, Mrs. Eve Hallacher died on Sunday morning at 2:30 o'clock. She had been a long sufferer from dropsy and heart trouble. She was aged 85 years, 1 month and 5 days. Funeral was held yesterday services by Revs. O. V. Long and D. H. Baker, burial being at Mummet's Meeting House. She leaves three sons and two daughters, Wilson of Hanover, Joseph of Churchtown, Cumberland Co., Milton of Idaho, Mrs. Mary Straubbaugh and Miss Sarah of this place. Two sisters survive, Mrs. Lewis Strayer and Mrs. Kraft of York. She was a kind mother, always giving good advice to her children. She was a consistent member of the German Baptist church for over 50 years. The new cannery factory started to day to can corn and tomatoes.

Two York ladies spent a week's vacation with P. P. Eisenhart.

August came in cool but not as cool as August 7, 1854, a day your correspondent remembers. It was a Sunday and he attended a funeral in New Oxford. He went on horse back as the young people did not know anything about buggies in those days.

PUBLIC SALE

OF VALUABLE REAL ESTATE.
ON SATURDAY, SEPT. 2, 1906, the undersigned, assignee of the estate of Henry J. Shriver and wife, in trust for the benefit of creditors, will sell at public outcry on the premises the real estate of said assignor, in Cumberland township, Adams county, about 40 miles south of Gettysburg, near the Taneytown road, the following valuable real estate:

No. 1. A FARM lying along Rock Creek and Plum Run, and adjoining lands of Wesley Kelly, John F. Sharetts and others, containing 150 acres and 91 perches more or less. Improvements are a two story brick dwelling house, summer house, smoke house, large bank barn, 25 by 48 feet, large wagon shed with corn cribs, implement shed, hog pen, smith house, sheep shed, well of water at the house and one at barn, and cistern near the kitchen door, young apple and peach orchard in good bearing condition and other fruit of all kinds about the buildings. The farm is well limed and manured and is reputed to be among the finest grain farms in the neighborhood. The timber of 18 acres will be offered separately, consisting of white oak, hickory, etc. This will leave 9 acres of timber to go with the farm.

No. 2. A LOT OF GROUND, adjoining the above, fronting on the Taneytown road, containing 1/2 acres and 22 perches more or less, improved with a frame three story cottage house with 8 rooms, covered with slate, cellar and paving, well of water at the porch, summer house, with cistern in it, frame barn, wagon shed, hog pen, young apple and peach orchard and all kinds of fruit. Both properties are close to school, church, stores, mill, etc. Persons desiring to view the premises can call on the undersigned residing on the lot No. 2. Sale to commence at one o'clock p. m., when terms will be made known by

PUBLIC SALE.

OF A VALUABLE FARM.
ON THURSDAY, the 17th day of AUGUST, 1906, the undersigned, Executors of the estate of the late A. Sheely, deceased, will offer at public sale on the premises, The VALLEY FARM, containing 100 acres more or less, all in a state of excellent cultivation with the exception of about 10 acres, which is good timberland, situated along the Berlin road, adjoining and partly in New Oxford borough, adjoining lands of John Kuhn, F. M. Miller, J. P. Ruff and others, improved with a large two story brick dwelling house, with large 2-story stone barn, spring house, smoke house, large bank barn, wagon shed, corn crib, hog pen and all other necessary out-buildings, good water, and plenty of good fruit trees, consisting of apple orchards, pear, peach and cherry trees and other fruits. The buildings are in good condition, the barn having been built only a few years ago, a natural stream flows through the farm, fed by never-failing spring of clear cool water. All the meadow land is drained by terra cotta pipes so that no water collects in any depression. On account of the sand formation of two of the fields, the farm is admirably adapted for truck raising in addition to other crops. Any one contemplating poultry raising, on account of the excellent railroad facilities and the close proximity of the city markets, will find this farm ideally located. The profits derived from trucking and poultry raising will more than pay the interest on an investment of \$1000 yearly. Persons desiring to look over the farm can do so by calling on the tenant who will take pleasure in showing them over the premises. As a safe investment, this is an opportunity that should not be passed by. Sale to commence at 2 o'clock p. m., terms made known by

MARSH CREEK AT WATER CO.

SHORT SKETCH OF THE GETTYSBURG WATER COMPANY.

Entire Stock of Company is Held by Citizens—Present Plant Adequate for Any Purpose.

Every one knows that Marsh Creek is the source of the water supply of Gettysburg and that the plant is located on a tract of land acquired from the McPherson farm at the White Bridge in Cumberland township, yet there are many facts about the Gettysburg Water Company which are not appreciated because they are not seen and known. The Water Company since its original creation almost eighty years ago, has always been a distinctly local company, its directors and stockholders being citizens of the town and county. Today its four thousand shares of stock, the par value of which is \$30.00 and the actual value about \$120,000 is held entirely by citizens and tax payers of Gettysburg and Adams county. The new plant is not of age yet, being erected in 1894 and is only eleven years old. The task of the stockholders at this distance can be perhaps better appreciated than at the time plant was erected. In the old plant had been invested almost \$30,000 and company had an income of about \$2,000 and paid yearly dividends of 8 per cent. The problems were to raise the money needed to develop the new plant, whether the income could be increased in proportion to the outlay and the dividend be maintained so that the stockholders could preserve their investment. Today these problems appear more than solved. The capital stock is doubled, every penny paid in and gone into improvements. A good many more thousands out of the income of plant have gone into betterments. The consumption has more than doubled for the income is not far short of \$9,000 and the stock is paying the same dividends today as eleven years ago. There will be complaints of short comings as there may always be, such as dirty pipes, leeches and the like, attributed to the reservoir, yet the fact remains that the water in Marsh Creek is of exceptional purity. The sources of Big and Little Marsh Creek are mountain springs of pure water. The mountain streams back of Hilltown and those from the hills back of Virginia Mills give pure water. No better can be found, and while the company has been criticised for not locating its plant nearer the source of this water, yet the same water is in Marsh Creek where taken out by plant and filtered it has been pronounced by analyzing experts to be absolutely pure. There is one great advantage the point of intake gives, west of the White Bridge, and it is singular that a bridge so known for years has been painted red for almost a generation, the floor of the creek is a red shale rock and any mud at point must be washed in, so that the taint of the water works at point shown in picture on first page is calculated to give the smallest amount of mud by reason of the rock formation. The plant of the Gettysburg Water Company is beyond criticism. The water is first pumped into a settling basin and from there passes through a filter erected according to the best scientific principles and is then pumped through a twelve inch main to town and down Baltimore street to the Diamond, and through six inch mains all over town. There are two ways for the water to enter town, down Baltimore street and Washington street, and the system used is such that any square may get its water from two or more directions, and this enables a square to be cut off for any purpose of repair and the rest of the town to be supplied during the time. The present plant has proven entirely adequate for any occasion, even when town is increased 10,000 in population by National Guard. Every piece of machinery in plant, engine, boiler, etc., is duplicated, so that it is not possible to be tied up by a break down. The machinery is used alternately to keep it in good working condition. The consumption of water in eleven years has increased enormously. For years there has been a steady increase in number of residences and with very few exceptions there have been made convenient with hydrant water. The bath tubs number nearly two hundred, and the convenience of the day is the closet, which are very numerous. The new sewer system will unquestionably increase the consumption of water. Within a few years bath tubs and closets will have doubled in number. The question may then arise whether the present plant can supply the town, yet it is the opinion of those best acquainted with plant that the limit of the capacity of the plant is not where it is set. The pumping is a matter of five or six hours every day and when the consumption demands it the whole twenty-four hours may be used. When the supply of water shall run short, it will only demonstrate the necessity of a storage dam. This will be for the company to handle and not the town. All its citizens can do is to enjoy the good water and pay the water rates. The present officers are President Dr. Walter H. O'Neil, Secretary and Treasurer J. Wm. Keith, Jr., Directors Dr. W. H. O'Neil, Hon. S. McPherson, John M. Warner, Hon. D. D. McPherson and Dr. Philip M. Bode. The Meaning of Rockefellerism. Rockefellerism is the name given to the public in return for the code of business principles he has taught it, in return for the havoc their enforcement has cost, in return for the hypocrisy and cynicism he has fostered? A great business organization—one of the greatest the world has ever seen—a demonstration of the possibilities of combination. True, but to build his organization he was obliged to perpetuate and expand, secretly, by force, bribery and trickery a vicious business system the country at large was striving to overthrow, and whose perpetuation and expansion has brought us into one of the most serious public situations since the Civil War. Has that paid? . . . He has built hospitals and colleges and endowed schools. True, and those helped have become his open apologists, by taking what they call the "large view" or the "charitable view," or by deliberately shunning a consideration of the subject, quietly not seeing in it a topic for discussion. Does it pay to have those who are entrusted with the very sources of our intellectual and moral life blinded or silenced to the ethical quality of the practices of our daily life? Will it pay our colleges to put over their doors the teaching of one of our present-day moralists. "Never discuss politics or religion if you would succeed." He has led a life devoted to charity and the church. True. And the principles of the religion he professes are so antagonistic to the principles of the business he practices that the very world which emulates him has been turned into hypocrites and cynics under his tutelage. . . . Not only has charity been tainted by the hypocrisy of his life, the church itself has been polluted and many a man has turned away from its doors because of the service support it gives to the men of whom Mr. Rockefeller is the most eminent type. Does all this pay? There is no shirking the answer. It does not pay. Our national life is on every side distinctly poorer, uglier, meaner for the kind of influence he exercises. From him we have received no impulse to public duty, only lessons in evading it for private greed; no stimulus to nobler ideals, only a lesson in the further deification of gold; no example of enlarged and noble living, only one of concealment and evasion; no impulse to free thinking, only a lesson in obscuring vital ethical issues by dressing them in the garbs of piety and generosity. None of those higher things which the public has a right to demand from the man to whom it permits great power are returned to it by Mr. Rockefeller. For Mr. Rockefeller has none of these things to give. He has nothing but money, and never was there a more striking example of the impotency of money! He has neither taste nor cultivation, ideals nor potent personality. He is not a great man, not a human man. He is a machine—a money machine—stripped by his overwhelming passion of greed of every quality which makes a man worthy of citizenship. He has not made good. He cannot make good. It is not in him. He has nothing the aspiring world needs. On the contrary, that for which he does stand is a menace to our free development not only or chiefly our free development in commerce, but, vastly more important, our free development in citizenship and in morals.—From Miss Tarrill's character study of John D. Rockefeller in the August "McClure's."

REACH THE SPOT.

To cure an aching back,
The pains of rheumatism,
The tired-out feelings,
You must reach the spot—get at the cause.

In most cases 'tis the kidneys.
Doan's Kidney Pills are for the kidneys.

Charles Bierbach, stone contractor, living at 2625 Chestnut St., Erie, Pa., says: "For two years I had kidney trouble, and there was such a severe pain through my loins and limbs that I could not stoop or straighten up without great pain, had difficulty in getting about and was unable to rest at night, arising in the morning tired and worn out. The kidney secretions were irregular and deposited a heavy sediment. Doctors treated me for rheumatism, but failed to help me. I lost all confidence in medicine, but Doan's Kidney Pills relieved me so quickly and so thoroughly that I gladly made a statement to that effect for publication. This was in 1898, and during the six years which have elapsed I have never known Doan's Kidney Pills to fail."

A FREE TRIAL of this great kidney medicine which cured Mr. Bierbach will be mailed on application to any part of the United States. Address Foster-McLurn Co., B. F. B. N. Y. For sale by all druggists; price, 50 cents per box.

WHAT ELIHU ROOT THINKS OF THE GANG.

"A Criminal Combination Masquerading Under the Name of Republicans."

Elihu Root, one of the strong figures of Republicanism, has been elevated to position of the highest honor and opportunity in the Secretaryship of State. No one who has watched his career can doubt that he will shed lustre upon the office and maintain well the honor of the nation.

His keen insight and his sturdy loyalty to the principles of Republicanism have not been shown to better purpose than in his courageous denunciation of graft among powerful persons in his party. His recent letter to Mayor Winney, of Philadelphia, startled the country by its vivid language, and won for him the highest praise as a leader. His characterization of the gang as "a corrupt and criminal combination masquerading under the name of Republicans" will always be remembered.

The utterance of such wide importance that it has been preserved in permanent form. The letter will appear as a supplement to the Sunday North American of August 29. It is printed on a handsome colored sheet, suitable for framing, decorated with Secretary Root's portrait and the arms of the United States and Philadelphia, the whole making a souvenir which every Pennsylvanian should keep.

Mid-Summer Store News

Specials For Hot Weather

HAMMOCKS

To rest in under the trees or on the shady porch on a hot afternoon. We had them from 50c to \$4.50. Prices for August reduced from 1/4 to 1/2.

SPECIAL

Reduction of 20 per cent. on all fardineres in the store except the 10c ones, during the month of August only. This is an opportunity to supply yourselves with these useful articles which seldom occurs in Gettysburg. Take advantage of it while it lasts. There are some beauties among them.

WE STILL HAVE SOME WHITE WARE

Left that must go at the reduction prices. All we have is on the tables now, so if you want any now is your opportunity. Cups, saucers, plates, bowls, etc., are in this assortment. Our new goods is crowding this out. Speaking of new goods we have the latest designs in

JOHNSON IMPORTED DINNER WARE

Stock patterns. We can sell as full a dinner set as you want, or as few pieces as may be wanted. There are several new and beautifully decorated patterns in the lot.

ANOTHER REDUCTION

Interesting, too, on Blue Flame Coal Oil Cooking Stoves. This is good hot weather talk, not on the principle that "like cures like." These stoves are made to save temperature in summer, not to make it, as the coal stove does. Light them up when you want to get a meal, no need to keep the kitchen red-hot all day. To say nothing of the labor saving freedom from ashes. Regular prices from \$3.25 to \$7.75. Special prices for August only from \$2.75 to \$6.90.

THE 'BIGGEST BARGAIN

Of all is one of our REFRIGERATORS. We only have a very few of them and the fact is we haven't room for them, so we have decided to put them "down and out," and that means at a price less than we could buy them at the factory today.

THE 20 PER CENT. REDUCTION

On Decorated Lamps and a number of Dinner sets and Toilet Sets to last through the month of August. After that if there are any left they will be at the regular price.

Now we have a number of other interesting things in the store that the clerks will tell you about when you come. We would only have time to mention them here. They are interested in selling you a Washing Machine or Ice Cream Freezer, and will tell you all the good points and money value in these articles.

DO YOU KNOW WE HANDLE

FARM MACHINERY

Of all kinds. Grain Drills, Manure Spreaders, Cider Mills, Feed Mills, Tornado Corn Harvesters, Gasoline Engines, etc. You can see these goods at our repository on the third floor of our store building on Baltimore street. And we sell only the very best machinery made.

We are agents for the celebrated

STUDEBAKER FARM WAGONS

And also for the very best Fertilizers manufactured.
